Require a solution for your lifting and handling needs?

“We do it right”

Who are Durham Lifting?

Founded in 1996, Durham Lifting is a lifting solution provider, servicing a worldwide customer base.

Heavy lifting is complex and risky. From concept to completion, Durham Lifting provide the experience and offer the strategy to execute the right solutions by utilising our facilities and qualifications.

At Durham Lifting we understand that productivity, safety, and reliability is what creates sustainable value and helps businesses remain competitive. Through our continued high standards of quality and customer service Durham Lifting hold ISO 9001:2015 certification and hold accreditation to BS EN 1090 execution class 3 for load bearing structural steel components.

Our core values are at the heart of everything we do and our mission statement **“We do it right”** ensures that our clients are dealing with an organisation they can trust to supply the right product, to the right standard at the right price.

How?

By implementing a four-step process Durham Lifting can be confident that the products and services offered fully meet with our clients' requirements.

- 1** Assess your needs
- 2** Investigate suitable Options
- 3** Make a technical Recommendation
- 4** Deliver the solution

Our highly skilled and knowledgeable sales, technical and operations teams are available at every stage of the process to provide information, technical guidance, and ongoing after-sale support.

As an equipment solution provider, Durham Lifting and our design team have many years of experience, knowledge, and the equipment necessary to deliver innovative problem-solving solutions, engaging with and surpassing the needs of our client base.

What we do at Durham Lifting

▶ Lifting & Handling Equipment Sales & Hire	3
▶ Testing	7
▶ Manufacture & Fabrication	9
▶ Multisec Lifting Systems	11

Why Choose Durham Lifting's Manufacturing & Fabrication services?

Unparalleled Expertise: Our highly skilled fabricators and welders are certified to the stringent standards of EN ISO 15614-1:2017 and ASME B30.20:2018. This ensures excellent welding quality, meticulous material controls, and precise craftsmanship.

Customisation at Its Finest: At Durham Lifting, we understand that your products have unique requirements. Our team works closely with you to fabricate, test, and certify your products, regardless of their size, in order to perfectly match your specific application.

Swift Turnaround Times: We value your time and understand the importance of efficiency. With Durham Lifting, you can expect prompt and reliable turnaround times without compromising on quality. We are committed to meeting your deadlines while upholding the highest standards.

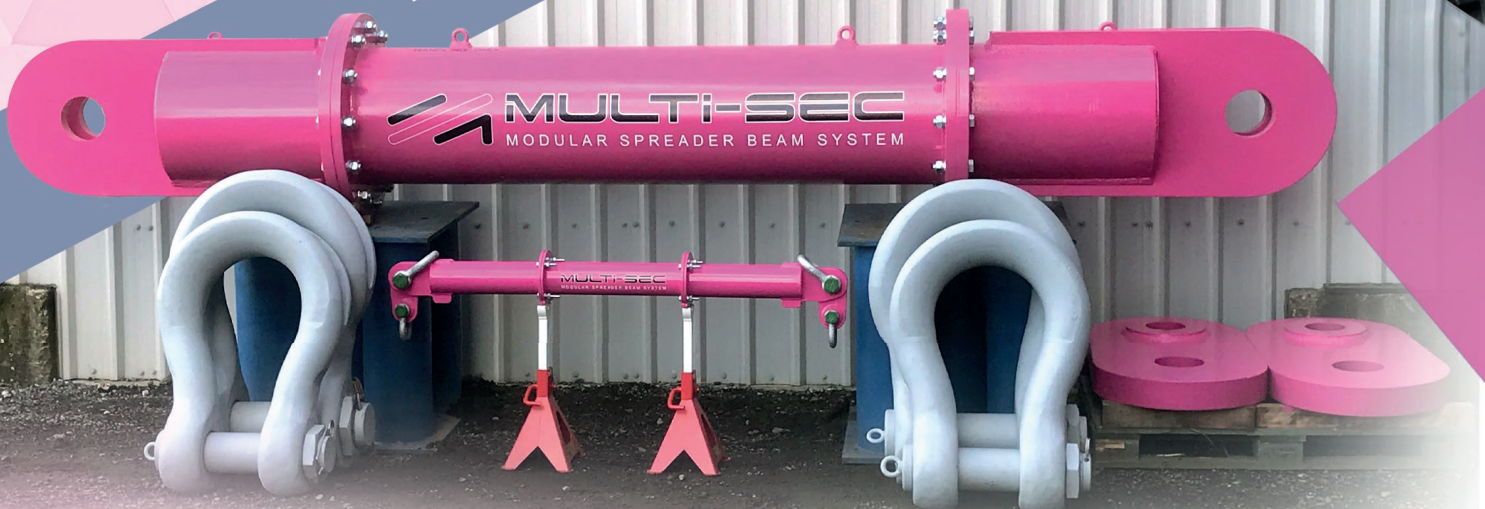

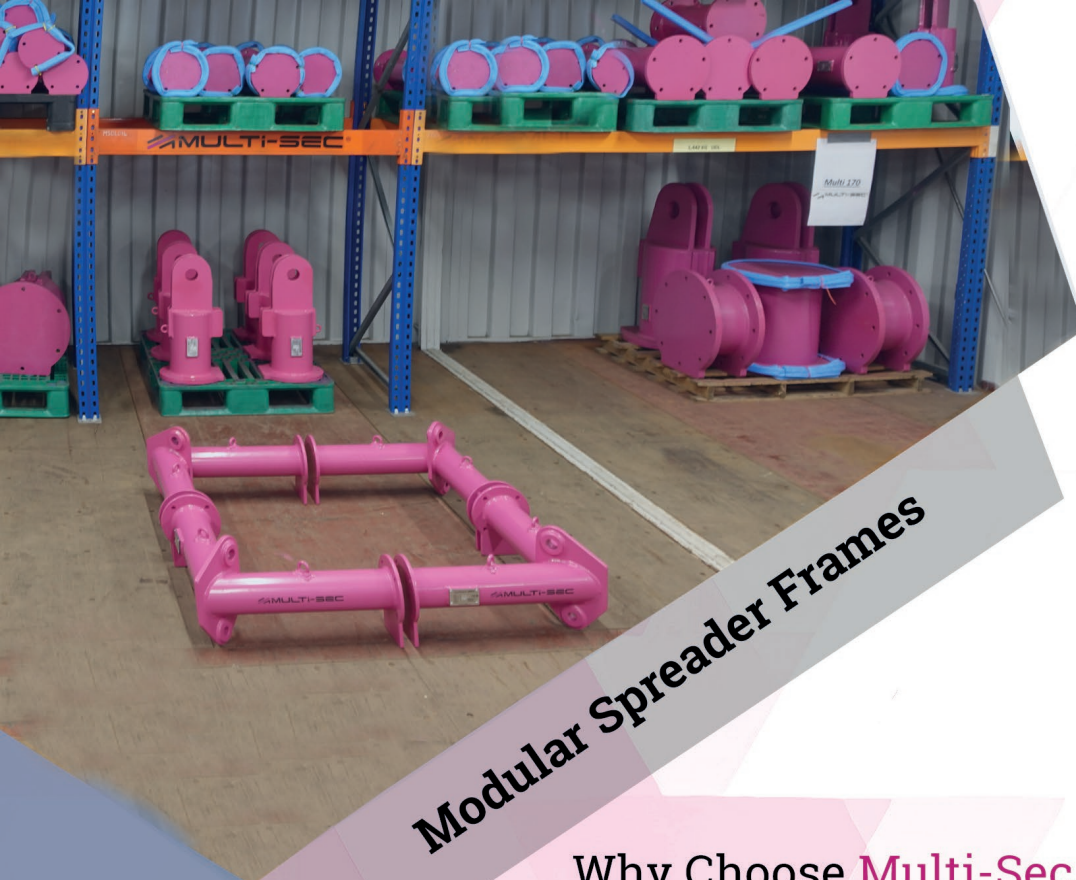

**Lifting Lugs | Stools | Stillages | Sea Fasteners
Grillages | Structural Steel | Multi-Sec Lifting Systems |
Lifting and Spreader Beams | Lifting and Spreader Frames |
C Hooks | Crane Systems | Bespoke Equipment**

The Multi-Sec range includes modular spreader beams, modular lifting frames, lifting beams, adjustable module lifting frames, lifting and spreader frames, and an array of other lifting equipment.

Our Standard Modular Spreader Lifting Beams are capable of lifting up to 250 tonnes, with spans of up to 22.5 metres.

Modular Spreader Beams

Modular Spreader Frames

Multi-Sec Modular Lifting Frames are the ideal solution for a four-point lift when a modular lifting beam arrangement is unsuitable. They combine the innovative design of Multi-Sec Spreader Beams and Corner Units to form a robust, versatile lifting frame.

Why Choose Multi-Sec Lifting Systems?

Cost Effective – A variety of spans and configurations can be made up with a small number of components.

Versatile – Our products can be configured into virtually any lifting rig to lift the most complicated of structures.

Storage – Multi-Sec products can be dismantled and stored in a relatively small area, saving your valuable space.

Handling – Our spreader beams can be handled more easily than conventional fixed spreader beams.

Transport – Multi-Sec modular systems can be packed and shipped in component form making delivery more cost effective and economical.

Other Products in the Multi-Sec Range Include:

Adjustable Lifting Frames

Lifting & Spreader Frames

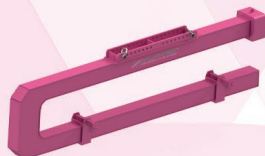

Lifting & Spreader Beams

Forklift Attachments

Container Lifting Frames

C-Hooks / Coil Lifters

Triangle / Quad Plates

Lifting Grabs

Bespoke Solutions

Our technical team can provide bespoke design solutions for your unique lifting and handling applications. Your goals are the key elements of our design process.

Our extensive industry leading design suites allow us to produce detailed design and fabrication drawings for bespoke components compliant to various Euro-codes and DNV standards.

Why choose Durham Lifting for your bespoke lifting requirements?

Industry Expertise: Our team of experienced professionals have in-depth knowledge and expertise in designing lifting solutions across various sectors.

Compliance and Safety: We adhere to the highest standards of compliance, ensuring that our designs meet Euro-codes and DNV standards to guarantee safety and reliability.

Tailored Solutions: We understand that every project is unique, and our custom designs are tailored to meet your specific requirements and achieve your desired outcomes.

Quality and Precision: With a focus on attention to detail, we pride ourselves on delivering high-quality designs and fabrication drawings that meet the highest standards of precision.

Reliable Support: Our dedicated team is committed to providing excellent customer service, offering reliable support and guidance throughout the entire design and manufacturing process.

Crane Systems

Durham Lifting design, manufacture and install crane systems including overhead travelling cranes, light crane systems, goliath cranes, jib cranes, portable A-frames and monorail systems.

**Every crane
is custom
designed and
built to suit
your specific
lifting
operation.**

Why Choose Durham Lifting's Crane Systems?

Quick Turnaround: We appreciate the need for timely solutions. That's why our crane systems are purposefully designed and manufactured to cater to your unique specifications, ensuring a speedy delivery for seamless integration into your operations.

Compliance Assurance: Rest easy knowing that our crane systems adhere to industry-leading standards, including BS EN 13001-1:2015, BS EN 1993-1-1:2005 Eurocode 3, EC Machinery Directive 2006/42/EC, LOLER:1998, and PUWER: 1998. Your safety is our top priority!

Service Excellence: Our qualified service engineers have extensive experience with all crane and hoist makes and models. Count on us for a comprehensive range of services, including installation, commissioning, testing, maintenance, inspection, modification, breakdown repair, and safety line installation. We keep your operations running smoothly and safely.
